

# ABOD6LHD

32.5" x 23.38" x 24.38" (H x W x D)

Performance Series BOD refrigerated incubator with 6 cu.ft. capacity

## Highlights:

BOD refrigerated/heated incubator for water treatment storage

Intelligent microprocessor digital temperature controller

Improved temperature accuracy with a separate temperature probe for continuous product readout to simulate stored product temperature

## Product Features:

BOD Refrigerated/Heated Incubator	Designed to store water samples under reliable temperature conditions for optimum research results
Purpose-built design	Constructed and featured for the storage of water samples
Pre-set to 20°C	Ideal temperature for bottle incubation
+/-1°C Variation	The published temperature variation is derived from the maximum deviation of an NTC sensor in a 1 oz. vial located nearest the chamber geometric center during a 24 hour test period
Large capacity	6 cu.ft. interior can hold up to 90 300ml incubator glass bottles (note: bottle capacity varies by exact bottle design and size)
Antimicrobial silver ion-coated handle	Powder-coated handle with naturally occurring silver ions to help reduce the spread of germs
Adjustable temperature	Intuitive controls let you adjust the interior temperature between +4 to +60°C
Temperature alarm	Visual and audible alarms alert if the interior temperature rises or falls out of set range
Remote alarm contacts	Electronic controller is equipped with a volt-free contact for alarm forwarding to an external remote system (contacts located in the external rear of the unit)
