

# ARS6PV-AFZ5PVBIADASTACK

64" x 23.38" x 25" (H x W x D)

PHARMA-VAC Performance Series stacked combination of ARS6PV vaccine all-refrigerator and AFZ5PVBIADA manual defrost all-freezer

**Highlights:**

- Purpose-built design to store medication, pharmaceuticals, and other sensitive materials
- Independent refrigerator and freezer storage in one slim-fitting footprint for space-challenged facilities
- Intelligent microprocessor digital temperature controller for optimum temperature management

**Product Features:**

|                                                     |                                                                                                                                                                                      |

| Performance Series Refrigerator-Freezer Combination | Purpose-built all-refrigerator and all-freezer for vaccine storage in medical, pharmaceutical, and life science applications                                                         |
| Purpose-built design                                | Designed and purpose-built for pharmacy, medication, and vaccine applications to support meeting CDC/VFC/VFA guidelines                                                              |
| +/-1°C Variation                                    | The published temperature variation is derived from the maximum deviation of an NTC sensor in a 1 oz. vial located nearest the chamber geometric center during a 24 hour test period |
| Space-saving design                                 | Allows you to create a full refrigerator-freezer with independent controls in a slim-fitting footprint                                                                               |
| Easy assembly                                       | Unit ships in three boxes for customer to install the StackRack on the bottom refrigerator/freezer and place and secure the other unit on top                                        |
| Antimicrobial silver ion-coated handles             | Powder-coated handles with naturally occurring silver ions to help reduce the spread of germs                                                                                        |
| Adjustable temperature                              | Intuitive controls let you adjust the interior temperature between +2 to +8°C (refrigerator) and -30° to -10°C (freezer)                                                             |
| Temperature alarms                                  | Visual and audible alarms alert if the interior temperature rises or falls out of set range                                                                                          |
