Profile™
We bring good things to life.

Sell GE Profile™ Washers.

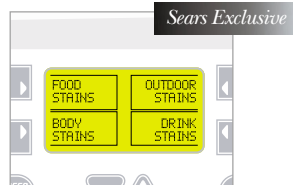

- **King-size, 3.5 cu. ft. capacity stainless steel basket** allows you to wash more at once, which means less time doing the laundry.

- **ENERGY STAR®-qualified**
Innovatively designed to maximize energy efficiency and minimize clothing wear and tear.

As an ENERGY STAR® partner, GE has determined that this product meets the ENERGY STAR® guidelines for energy efficiency.

- **One-touch Fabric Care system**
Easy-to-use onscreen menu gives you a variety of preset options for fabric care and stain removal.

- **Ultra Handwash cycle—American's Gentlest Agitation™!**
Lets you clean items that usually need to be handwashed.

- **High, 850-rpm spin speed**
Removes more moisture from clothes during spin, saving time and energy.

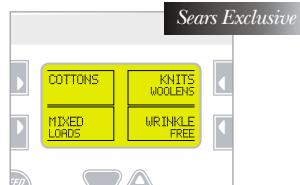

*A soccer uniform, a school uniform or a golf outfit.

- **Speed Wash/Speed Dry**
When combined with the Speed Dry system, clothes* can be cleaned and dried in 30 minutes or less.

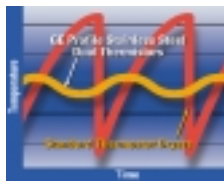

Sell GE Profile Dryers.

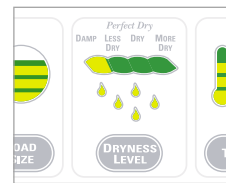

- **King-size stainless steel drum**
Handles king-sized items and family-sized loads. **Includes dryer rack.**

- **Easy Touch electronic controls with icons**—Familiar icons and symbols make options easy to understand and operation simple.

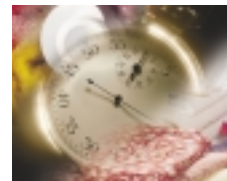

- **Dual thermistor heat management**
Maintains even heat to shorten dry times for better fabric care.

- **Exact Dryness Levels selection**
Exceptional drying accuracy, no overdrying or underdrying.

- **Delicate Cycle with Extra-Low Heat Setting**
Helps protect fine garments from shrinkage and wear.

**Similar fabrics of typical mixed loads.

- **Matched wash/dry times****
Dryer keeps pace with the washer, so there's no waiting on the dryer to finish.

A new spin on clean. Bigger, Faster, Gentler.
