

Microwave Combination Oven

E30MC75JPS professional series

Wave-Touch® Controls

Sleek control panel illuminates with just a touch – giving you more control over your cooking – and fades away to an uncluttered display after an option is selected.

Smooth-Glide® Oven Racks

Ball bearing oven racks glide with unparalleled ease and extend fully for effortless access.

CustomConvect3™ Convection Technology

Distributes heat evenly throughout the oven by adding a third cooking element plus a variable speed fan.

Custom-Set™ Options with Temperature Probe

Seven cooking modes with eight cooking functions give you more cooking flexibility and control – and the temperature probe monitors the progress of your meat dishes.

30" BUILT-IN MICROWAVE COMBINATION OVEN

MICROWAVE FEATURES

Oven Cavity	1.5 Cu. Ft.
Watts	900

Specifications subject to change.

Microwave Combination Oven

E30MC75JPS professional series

Electrolux | ICON®

30" Built-In Microwave Combination Oven Specifications

- Product Weight – 240 Lbs.
- Single phase 3- or 4-wire cable, 120/240 or 120/208 Volt, 60 Hertz AC only electrical supply with ground required on separate circuit fused on both sides of line.
- Connected Load (kW Rating) @ 240/208 Volts = 7.1/6.1 kW
- Amps @ 240/208 Volts = 30/30 Amps
- Recommended Circuit Breaker – 40 Amps
- Always consult local and national electric codes.
- Minimum 23-1/4" clearance for oven door depth when open.
- Suggested distance from floor is 11-1/2". Minimum required distance is 4-1/2".

- Minimum 24" deep cutout dimension is critical for proper installation, to ensure that oven's faceplate will fit flush against cabinet front.
- Full oven base of solid plywood or similar material required, capable of supporting 300 Lbs.
- Base must be level and cabinet front must be square.
- Microwave Combination Oven is NOT approved to be used in stackable or side-by-side installation.

Note: For planning purposes only. Refer to Product Installation Guide on the web at electroluxicon.com for detailed instructions.

General Installation Guidelines

For Installation with Counter-Depth Side-by-Side Refrigerator

Electrolux | I C O N[®]

Use these dimensions and clearance instructions for planning purposes only. For detailed installation instructions, refer to installation guide, packed with product, or on the web at electroluxicon.com.

Front

When installing built-in cooking appliances in combination, 2"-high minimum visible gap between appliance faceplates required.

Clearance information for cooking appliances, provided in specific product's installation guide.

Top

*When installing side-by-side refrigerator adjacent to wall, cabinet or another appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 120° to 180° door swing, providing complete drawer / crisper access and removal. (Absolute 4-1/2" minimum clearance will ONLY allow for 90° door swing which will provide limited drawer/crisper access with restricted removal.)

When installing appliance with sliding drawer or drop-down door directly across from obstructions, provide sufficient clearance for drawer extension or door swing.

Front

To ensure optimum performance, avoid installing refrigeration appliances in direct sunlight or near heat source.

Top

When installing appliance with side-swing door adjacent to wall, cabinet, or other obstruction that extends beyond front edge of appliance, door swing and handle clearance must be sufficient to allow access to appliance interior.

When installing appliance with sliding drawer or drop-down door directly across from obstructions, provide sufficient clearance for drawer extension or door swing.

When installing appliance with sliding drawer or drop-down door adjacent to wall, cabinet, or other obstruction that extends beyond front edge of appliance, allow 2" minimum clearance between drawer or door and obstruction.
