

FQ55UFX

Product family	Refrigerator
Installation	Free-standing
Category	2 doors & 2 drawers
No-frost system	Total
Cooling type	Fan-assisted refrigerator, no-frost freezer
Defrost	Automatic
Hinge	Standard
EAN code	8017709303891

Aesthetic

Aesthetics	Universal	Handle	Integrated
Color	Stainless steel	Side material	Steel
Finishing	Fingerprint-proof	Logo	Applied
Design	Flat	Display	LED
Material	Stainless steel effect	Display position	Internal
Door stainless steel type	Fingerprint-proof		

Refrigerator compartment features

No. of adjustable shelves	2	Type of crisper cover	Glass
Number of fruit and vegetables drawers	3	Refrigerator lighting	Yes
Type of adjustable shelves	Glass	Refrigerator lighting	LED
Crisper cover	Yes		

Refrigerator Inner Door

Number of adjustable door shelves	4	No. of bottle shelves	2
--	---	------------------------------	---

Other Refrigerator features

MultiFlow

Yes

Fan

Yes

Freezer features

Number of drawers 2

Other Freezer features

Ice maker Automatic

Ice-tray shelf

Yes

Other technical features

Display functions

Fast-freezing, Fast-cooling, Child lock

MultiZone

Yes

Fast-freezing button

Yes

Water network connection

Yes

Temperature setting type

Electronic

Refrigerant gas type

R600a

Compressor type

Inverter

Foam agent

Cyclopentane

Performance / Energy Label

Noise level 45 dB(A) re 1 pW

Electrical Connection

Plug (B) NEMA 5-15P

Voltage (V) 115 V

Electrical connection rating 140 W

Frequency (Hz) 60 Hz

Current 2.5 A

Power cord length 66 15/16 "

Symbols glossary

	4 stars freezing compartment for better food preservation.		The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.
	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		LED display: to show programmes, functions and options selected and the time to the end of the cycle.
	Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.		Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.
	Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.		LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.
	Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.		Air plus: keeps food fresher for longer.
	No Frost: The No Frost and Frost free systems prevent ice from forming so that no defrosting is required.		

Benefit (TT)

Plastic multiflow system

The Multiflow system ensures even distribution of cold air inside the refrigerator

Fan

The fan contributes to an even distribution of air inside the refrigerator

Multizone (variable temperature compartment)

The Multizone system isolates a freezer compartment with adjustable temperature independent of the main compartment, to give maximum storage flexibility

The Multizone compartment can be used both as a freezer and as a refrigerator. Depending on one's needs and eating habits, each user can choose how to set it, programming the temperature via the external display.

Refrigerant gas R600a

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

Climate class

Climatic class SN-T makes the appliance suitable for working at room temperature between 10 °C and 43 °C (50 °F ~ 109 °F)

Reversible door

Reversible door ensures flexible installation and space optimisation

Refrigerator Internal lighting

Interior lighting for perfect visibility of shelves in the refrigerator compartment

Fruit and vegetable drawer

The fruit and vegetable drawer ensures the best storage conditions for fresh food, avoiding any contamination

Inverter compressor

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

Internal display

Internal display for targeted temperature control and a clean, minimalist design
