

# GCWN3000M

## GE® 3.6 DOE cu. ft. stainless steel capacity washer

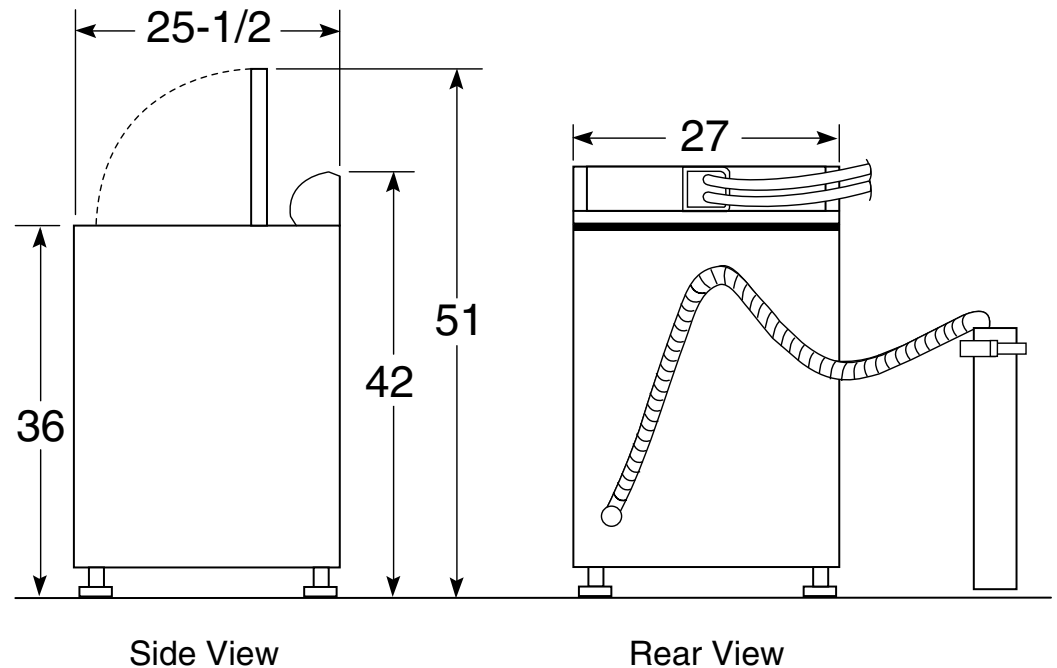

### Dimensions and Installation Information (in inches)

**Circuit Requirements:** An individual, properly-grounded branch circuit, with a three-prong grounding-type receptacle, protected by a 15 or 20 amp circuit breaker or a time-delay fuse, is required.

**Electrical Rating:** 115V, 60Hz, 10A

**Note:** Washer wall outlet must be located within 36" of service code entry. Wall outlet must not be located behind dryer.

**Installation Information:** Before installing, consult installation instructions packed with product for current dimensional data.

## GE® 3.6 DOE cu. ft. stainless steel capacity washer

### Features and Benefits

- GentlePower™ agitator - Enjoy advanced cleaning results while reducing normal wear and tear
- Rotary electromechanical controls - Easy-to-use controls make it simple to set cycles
- 2 wash/spin speed combinations - Speeds are matched to fabric type for great clothes care
- Multiple wash cycles - Multiple cycles are designed to specifically handle various fabrics and soils
- Bleach and fabric softener dispensers - Solutions are automatically mixed with wash water for bright, soft-to-the-touch results
- 630 RPM spin speed - Fast speeds remove more water during the spin cycle to minimize drying time
- 3 Wash / Rinse Temperatures - Allow you to select the right temperature for better wash results and longer fabric life
- 3 water levels - Allows user to match the water level to each load of wash
- Model GCWN3000MWS - White on white
