

JP930SL

GE Profile™ 30" Built-In CleanDesign Electric Cooktop

Dimensions and Installation Information

KW Rating	
240V	8.1
208V	6.1
Breaker Size	
240V	40 Amps†
208V	30 Amps†

†Note: Check local codes for required breaker size

Important: Requires a 5" free area between the bottom of the cooktop to any combustible material, i.e., shelving. Free area not required when installing wall oven underneath cooktop. Refer to installation instructions. Requires an 18" minimum from cooktop to adjacent overhead cabinets. Units are furnished with a 48" flexible armored cable.

Note: 30" Ribbon cooktops are approved for use over select GE 27" and GE 30" Single Wall Ovens and Warming Drawers. Refer to cooktop and wall oven/warming drawer installation instructions packed with product for current -dimensional data. If installed with a GE Profile™ Telescopic Downdraft System, consult both the cooktop and downdraft installation instructions packed with product before installing. Cooktop gas/electric supply may need to be re-routed to install downdraft. Consult cabinet and countertop manufacturer's specs for flush mount installation prior to install. **Before installing, consult installation instructions packed with product for current dimensional data.**

Filler Trim Kit: When replacing an old GE 30" cooktop (with larger opening) use the following one-piece trim kit to fill in the over-size hole. Available at additional cost. JXTR32W (True White) JXTR32B (Black glass with black, white or bisque pattern)
