

GE Appliances

JVM1440BD/WD - GE Spacemaker 1.4 Cu. Ft. Capacity Over-the-Range Microwave Oven with Outside Venting

Dimensions (in inches)

Note: Requires 120V grounded outlet. Electrical receptacle must be located in cabinet above Spacemaker microwave oven. No additional wiring, venting or cabinet rebuilding necessary in many cases. Complete detailed, easy-to-follow installation instructions and convenient full-size templates are packed with the Spacemaker microwave oven.

Important Information: When installing the Spacemaker microwave oven over a range, allow minimum of 2" from bottom of Spacemaker microwave oven to top of range backguard to allow for removal of light covers.

Ventilation Options: The Spacemaker microwave ovens are designed for adaptation to the following three types of ventilation:

- Outside exhaust (vertical—as shown)
- Outside exhaust (horizontal)
- Recirculating (non-vented ductless—see Filter Kit drawing)

Installation Information: This information is not intended to be used for installing unit described. Before installing, consult installation instructions packed with product/kit for current dimensional data.

GE Appliances
