### Key Features & Benefits

#### Bottle Wash Option

Provides spray nozzles in the upper rack that can be placed deep inside tall or odd-shaped items like bottles, glasses and vases to thoroughly clean them. Each nozzle is adjustable so it can be positioned to accommodate a wide variety of dishes.

#### PrintShield™ Finish

Resists smudges and fingerprints. The specialized coating for stainless steel is easy to clean with just water and a soft cloth, so you can spend more time cooking and less time cleaning up the kitchen.

#### ProWash™ Cycle

Determines the ideal cycle for washing dishes based on soil level and then makes real-time adjustments to achieve the best cleaning performance.

\*Per IEC standards. NOTE: Dimensions are for planning purposes only. For complete details, see Installation Instructions packed with product. Specifications subject to change without notice.
