MHN33 High-Efficiency Front-Load Washer

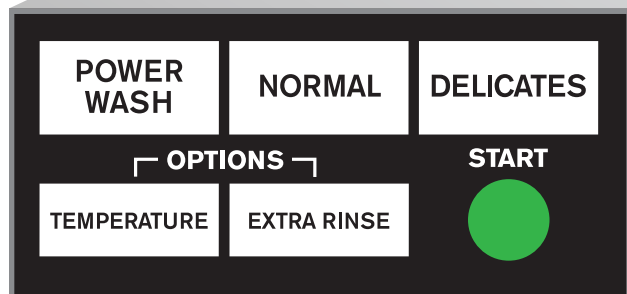

WHAT'S INSIDE MATTERS®

INTELLIGENT CONTROLS WITH M-SERIES TECHNOLOGY

Intelligent Controls with M-Series Technology helps deliver powerful profits for owners and provides wash cycle flexibility for customers. These enhanced controls allow customized setup. Each cycle and option can be priced individually, maximizing revenue. Plus, customers have the ability to select a preferred cycle and option based on individual wash needs.

FEATURES:

Time of Day Pricing

Controls offer the flexibility to program special pricing based on day of week and time of day.

Multi-Level Pricing

To maximize revenue, owners have the ability to price each cycle independently. With the addition of the PowerWash® cycle, customers can benefit from extra cleaning power with more agitation time, hotter water and extra rinses.

Cycle Modifiers

To boost profits even further, owners can charge for individual cycle modifiers. Add a rinse or modify water temperature for more revenue-generating opportunities.

Cloud and Mobile-Payment Compatible

Maytag Connect 360™ delivers real-time machine diagnostics to owners via the cloud. With the Clothespin™ app by Maytag, customers can use their smartphones to pay for their laundry, remotely check for washers and dryers, and receive a notification when their laundry cycles are complete.
