

GE Profile™ 30" Free-Standing Electric Range with Warming Drawer

Dimensions and Installation Information (in inches)

KW Rating	
240V	13.5
208V	10.1
Breaker Size	
40 Amps†	

†Note: Check local codes for required breaker size.

Effective January 1, 1996, the National Electrical Code requires that new construction (not existing) utilize a 4-conductor connection to an electric range.

Receptacle Locations

Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against wall.

Note: 30" ranges conform to U.L. requirements for 0" spacing from adjacent walls below countertops. To reduce possibility of scorching walls, engineering recommends a minimum of 1-1/2" spacing to allow for possible extended, high-heat, no-load heating element operation.

Installation Information: Before installing, consult installation instructions packed with product for current dimensional data.

For answers to your Monogram,[®] GE Profile[™] or GE[®] appliance questions, visit our website at geappliances.com or call GE Answer Center[®] service, 800.626.2000.

All GE ranges are equipped with an Anti-Tip device. The installation of this device is an important, required step in the installation of the range.

PB900SP

GE Profile™ 30" Free-Standing Electric Range with Warming Drawer

Features and Benefits

- Self-Clean Oven - Conveniently cleans the oven cavity without the need for scrubbing
- Super-Large 5.3 Cu. Ft. Oven Capacity - Provides an impressively large oven interior to cook more dishes and large meals at once
- Dual Size Ribbon Element - Offers a convenient choice of using a 9" or 12" heating element, depending on the size of the pan
- 6"/9" PowerBoil™ Element - Accommodates various-size pots or pans and 3,000 watts of power speeds the boiling process
- Warming Drawer - Convenient drawer keeps breads, desserts or just-cooked foods warm and ready-to-serve
- Warming Zone - Provides low heat capability for foods, making meal coordination simple
- Self-Clean Heavy-Duty Oven Racks - Double coated porcelain-enameled racks no longer require hand cleaning
- TrueTemp™ oven system - This feature helps ensure the temperature you set is the temperature you get, with less variance, to give you the baking and broiling performance you desire
- QuickSet V Oven Controls - Feature an easy to use design that allows you to set precise cooking temperatures
- Model PB900SPSS – Stainless steel
