

# SCFU1211FROST

59.38" x 26.75" x 26" (H x W x D)

Upright commercial beer froster with digital thermostat, frost-free operation, and self-closing glass door; replaces SCFU1210FROST

### Highlights:

Designed to keep beer at its coldest possible temperature before freezing

ETL-S listed for commercial use

Self-closing door ensures items aren't left exposed to room temperature

### Product Features:

|                                |                                                                                                                         |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Commercial Beer Froster        | Specially designed to store aluminum bottles of lighter domestic beer at 24°F, the coldest temperature before freezing  |
| Commercially listed            | ETL-S listed to NSF standards for commercial use                                                                        |
| Frost-free operation           | No-frost convenience requires no manual defrosting                                                                      |
| Digital thermostat             | Electronic controls for easy temperature management                                                                     |
| Self-closing door              | Ideal for busy commercial settings, where customers and staff don't always have the chance to ensure the door is closed |
| Double pane thermal glass door | Heat-safe design offers full display of interior                                                                        |
| Cantilevered shelves           | Rearrange freezer space to accommodate a variety of sizes                                                               |
| Strong commercial shelving     | Each shelf can hold loads that weigh up to 88 lbs.                                                                      |
| Light box                      | Illuminated canopy lets you insert your own decal                                                                       |
