

Profile Performance Series™

TNS22PRCBS - GE Profile Performance™ 21.7 Cu. Ft. CustomStyle™ No-Frost Top-Freezer Refrigerator with Dispenser

Case Dimensions (in inches/cm.)

Rough-In Dimensions (in inches/cm.)

Standard, New Construction and Replacement Installation

Installation Tips to Maximize the Built-In Look

- All wall/floor moulding should be removed prior to installation.
- Water recess on rear wall recommended to prevent water line damage. 48" minimum length 1/4" diameter water line tubing recommended.
- When possible, recess both copper water line and electrical outlet. (See local codes)
- Front and rear leveling legs are adjustable for the built-in look. (See owner's manual)

Handle Side Clearance

- At least 2" (51 mm) on the handle side for fingertip clearances.

Top and Bottom Clearance

- At least 3/16" (4.75 mm) at the top and bottom edges to allow for trim flange.

Hinge Side Clearance

- The installation of 3/4" (19 mm) thick side panels requires less clearance because the space between the door and adjacent countertop is wider.
- To avoid door contact to countertop consider:
 - Miter the corner of the adjacent countertops 45°, or
 - pull the refrigerator forward enough to avoid contact.

IMPORTANT: Before finalizing specifications for your GE Profile Performance™ CustomStyle™ Refrigerator, Please NOTE:

- A minimum of 36" is required for refrigerator installation
- Be sure to allow for 1/2" or 3/4" side panels in addition to the 36" minimum
