Parts Lists 4

Safety and Warning 4

Tower Installation 5

Connections 5

Warranty 8

Installation Kit Includes:

1. Double Tower (faucets, handles, gaskets, & hardware)
2. Nitrogen hose (1 hose clamp)
3. Infuser regulator (hoses & hardware)
4. Liquid jumper line (with in-line filter) and gas jumper line
5. Drip tray
6. Cleaning solution (2-ounce packet)
(Additional cleaner, ULACOFFEECLEAN, is available at u-line.com)
7. 2 ½ gallon Ball tap keg

Required (not included):

1. Food grade nitrogen - available at your local gas supplier. 22 cubic feet aluminum empty tank (ULANITROTANK) and nitrogen regulator (ULANITROREG) are available at u-line.com.

Note: If using an external nitrogen source, see CONNECTING EXTERNAL NITROGEN SOURCE section.

2. Ball-tap keg - up to 5 gallon
3. Your favorite cold coffee or tea.

Safety and Warning

Keep nitrogen tank in an upright position and handle with care.

Never exceed 60 PSI.

Ventilate area after nitrogen leak.

Install Tower

Do not remove all the protective film on the stainless exterior until the tower is installed.

1. Align tower with draft hole, mark and drill holes for mounting hardware.
2. Position gasket over mounting hole and install tower using four Phillips screws and nuts.

3. Screw the handles onto the faucets and continue to assemble and connect regulator to Nitrogen tank.

Connecting to Nitrogen Tank

Assemble and connect tank regulator to tank

1. Attach ball valve to tank regulator (not included). Tighten with an adjustable wrench. Make sure valve is in the off position - turned clockwise as far as it can go.

2. Attach regulator to nitrogen tank. Hand tighten the coupling nut and then use an adjustable wrench for an additional quarter turn. DO NOT OVER TIGHTEN.

3. Attach nitrogen hose to ball valve on tank regulator. Make sure valve is in the off position - turned clockwise as far as it can go. Tighten hose clamp.

- Attach other end of nitrogen hose to T connector on infuser regulator - line up and press in firmly.

Connect nitrogen to keg

- Attach gas jumper line to T connector on infuser regulator - line up and press in firmly.

- Attach gray coupler of the gas jumper line to keg. With your thumb press down on the top of the coupler while pulling up on collar. Press coupler down firmly onto "in" valve. Release collar - listen for a click. Pull up on the coupler to ensure it is locked down.

- Attach infuser hose to elbow connector on infuser regulator.

- Attach other end of hose to the single connection within the beverage tower.

Connect keg to tower

1. Attach black nitrogen coupler of the liquid jumper line to keg. With your thumb press down on the top of the coupler while pulling up on collar. Press coupler down firmly onto "out" valve. Release collar - listen for a click. Pull up on the coupler to ensure it is locked down.

2. Attach other end of beverage hose to "Y" connection within dispenser tower - line up and press in firmly.

Connections

When complete, the connections should look like this:

Warranty / Support

U-Line will replace missing or defective components for 60 days from date of purchase. Contact U-Line at +1.414.354.0300. Proof of purchase is required.

Additional tap accessories and cleaning solution are available at your local brewing supply store or online.
