30" TRIPLE STACK  
PROFESSIONAL STYLE

Details for Flush Installation

PLANNING GUIDE

# FISHER & PAYKEL

## PLANNING GUIDE 30" Professional Triple Stack

This Planning Guide outlines the specific installation of a flush finish with front cabinetry for the 30" Triple Stack, with Professional Style appliances.

Cabinetry dimensions and construction contained in this document are a guideline only and will need to be adapted to suit specific location, cabinetry materials and construction methods.

Please consult individual product literature for full installation instructions.

Contemporary and Minimal Style appliances have different cabinetry requirements, please refer to separate Planning Guide for these specifications.

**DETAIL B - COOK PRODUCT**  
PROFILE VIEW

**IMPORTANT**

The Coffee Maker and Cook Product (Speed Oven or Steam Oven) share the same overall front frame dimensions H x W x D. However there is a critical difference in the relationship between the front frame with the base of the chassis. This dimensional difference between the Coffee Maker and Cook Product, results in the Coffee Maker requiring additional cabinetry components. These details are outlined in the following pages.

## CABINETY OVERVIEW 30" Professional Triple Stack

This is an overview of cabinetry construction and product installation. Please see following pages for further details.

### IMPORTANT

- Shelves must be constructed from materials that will support weight of appliances.
- The cabinetry materials must be able to withstand heat.
- During installation appliances may need to be shimmed for precise alignment between products and cabinetry.
- Power cable requirements and cable outlet position can be found by consulting individual product installation manuals.
- Consult individual product installation manuals for complete product and cabinetry requirements
