

clothes care

GE Profile Harmony™ clothes care system

GE Profile Harmony™ clothes care system

Introducing the first washer that communicates with the dryer.

washer

HydroWash™ system

Achieves frontload wash performance with topload convenience.

HydroHeater™ internal water heater

Increases wash temperature to clean tough stains on loads like white cottons.

King-size, 4.0 cu. ft.* stainless steel basket

Largest capacity washer available.

Auto balance suspension system

Keeps washer in balance even if the load is unbalanced.

Direct-drive technology

Fewer parts means quiet, reliable operation.

CleanSpeak communication system with English/Spanish LCD display

The washer communicates electronically with the dryer, which then presets dry cycles for better clothes care, increased time savings and greater convenience.

Model WPGT9360

Model DPGT750

dryer

King-size, 7.3 cu. ft. stainless steel drum

DuoDry system™

Uses dual thermistors to help maintain even heat and sensor bars to ensure the right level of dryness is reached.

Adaptive-venting system

Duct runs up to 150 ft.** for optimal performance and installation flexibility.

Variable heater

Delivers constant heat, eliminating extreme temperature changes for better clothes care.

Dual motors

One maintains airflow, the other controls tumbling action to ensure fast, even drying.

Reversible washer and dryer control panels

Washer and dryer control panels can be easily interchanged to allow installation flexibility.

*Washes equivalent amount of clothes as 4.0 cu. ft. agitator machine, per IEC ratios.

**Of equivalent ducting.

GE Profile Harmony™ clothes care system

Outstanding stain removal and cleaning performance.

washer

Model WPGT9360

HydroView™

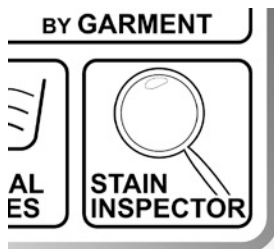

tempered-glass lid

allows you to view clothes without opening the lid or stopping the wash cycle.

Exclusive Flow-Thru™ dispensing system

releases the cleaning solution, fabric softener, additives and bleach at just the right time to improve performance and save time.

Exclusive Stain Inspector™ system

is the most comprehensive stain removal system available and treats more than 80 common stains.†

Better clothes care

- **Exclusive HydroWash™ system** achieves frontload wash performance with topload convenience.
 - **Rotating basket and Infusor™** deliver exceptional cleaning and keep whites white.
 - **Centrifusion wash action** infuses the detergent solution through clothes for gentle cleaning.

In harmony with your lifestyle and the environment

- **King-size, 4.0 cu. ft.* stainless steel basket** makes room for more items, which means less time doing laundry.
- **High spin speed** extracts more water for less drying time.
- **Adaptive water levels** are matched to load size, which use up to 40% less water than a traditional topload machine.**
- **Efficient operation** results in energy savings of up to 47% over a traditional topload machine.**

*Washes equivalent amount of clothes as 4.0 cu. ft. agitator machine, per IEC ratios.

**Compared to DOE energy conservation standard.

†Based on number of stains treated, automatic settings, matching soil, fabric type and color.

GE Profile Harmony™ clothes care system

Consistent, accurate drying.

dryer

Exclusive DuoDry™ system:

- **Dual motors**—one maintains proper airflow, and the other controls tumbling action to ensure fast, even drying.
- **Dual electronic thermistors** continually monitor air temperatures to provide even heat for optimal drying performance.

Variable heater delivers constant heat, eliminating extreme temperature changes for optimal drying results and better clothes care.

Adaptive-venting system delivers exceptional drying performance, with duct runs of up to 150 ft.*

Clothes look newer, longer

- **Delicate cycle** maintains an average fabric temperature of 125°F to protect fine handwashables.
- **Electronic moisture sensor bars** help prevent underdrying and overdrying.

Time and energy saving

- **Fastest premium dryer you can buy.** Thermistors and motors work together to provide faster dry times with less wear.
- **King-size, 7.3 cu. ft. stainless steel drum** handles king-size items and family-size loads, which means fewer loads per week.
- **Washer communicates electronically with the dryer.** Once the dryer gets the message, it automatically determines which settings will deliver the best results—all users have to do is just press “Start.”

*Of equivalent ducting.
